

ACCUTON - C²24-6 - preliminary data

www.accuton.com

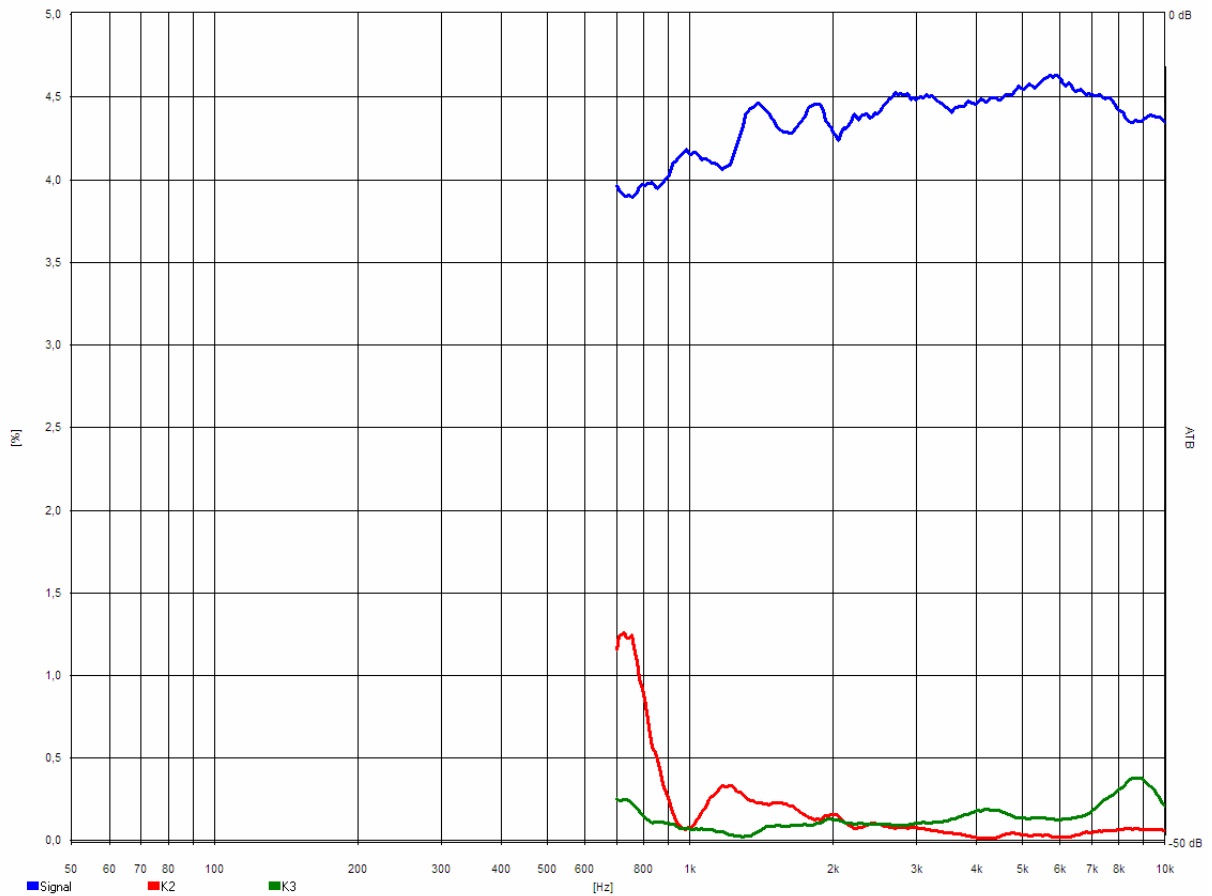

- 30 mm ceramic cone like C²23-6
- frontplate fully compatible with both - C²12 or C²23
- high efficiency – 92 dB / 2.83 Volt
- high energy distribution
- new 6 mm underhung Neodymium magnet system
- extremely low distortion even at high volume
- also 4 Ohm type available
- significantly reduced ferrofluid filling

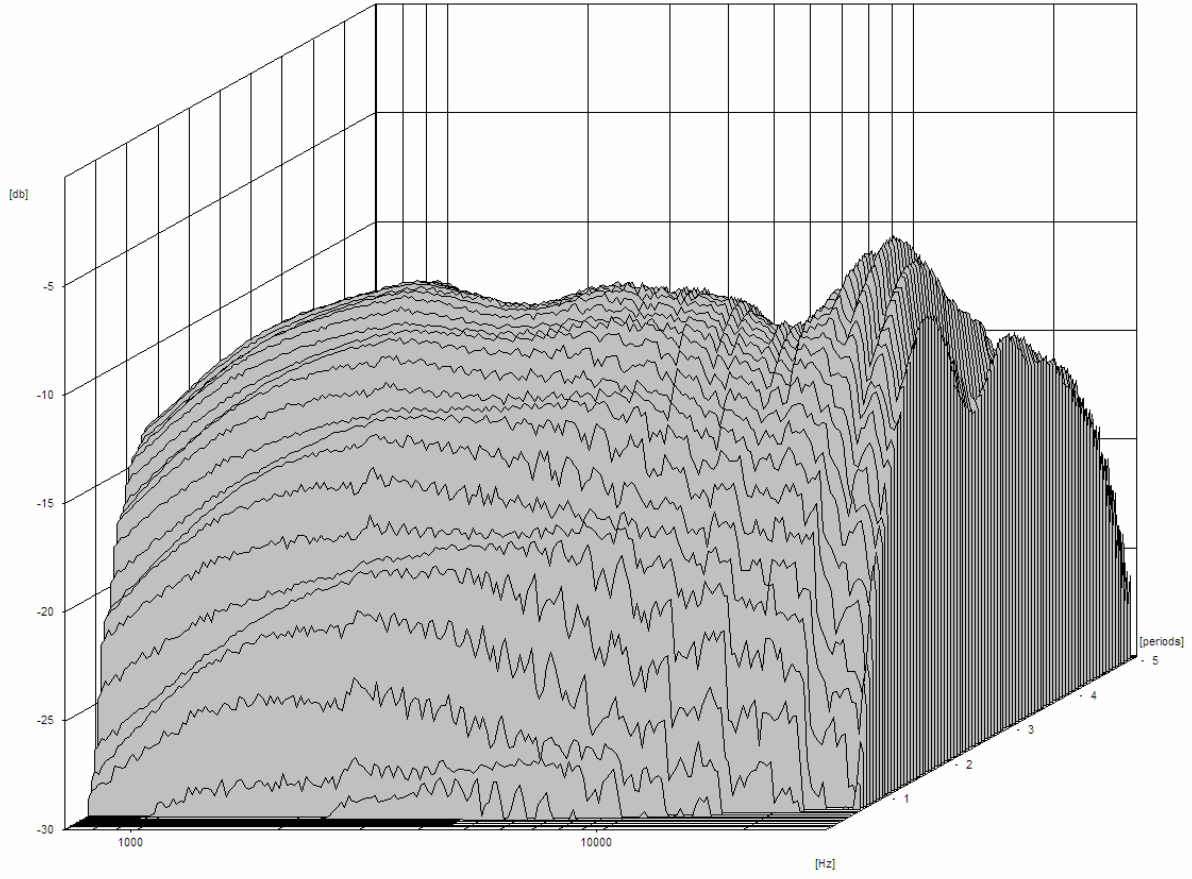

C² 24/6 (1 Watt)

C² 24/6 (5 Watt)
